

ET8136, ET8138

Features:

- Ultra-thin design that fits easily in a pocket.
- Automatic range and automatic identification.
- It is comparable in size to the 4.7-inch mobile phone.
- The design is exquisite, simple and generous, large touch screen
- Simulation bar: more intuitive display of measurements. The analog bar provides fast and accurate digital representation.

Two model: Winapex 8136 Winapex 8138 Two differences: 8138 is color screen, and have Hz function, Only 8138 have a storage bag!!!

Specifications:

Main material: ABS

True-RMS: yes Display: 6000 counts (3 5/6)

Direct Current voltage: 0V-1000V

AC voltage: 0V-750V

Resistance: 1Ω-6MΩ

Capacitance: 1nF-60mF

NCV: YES Zero line of fire: YES

Backlight: YES Flashlight: YES

Room temperature display: YES

Keeping data: YES

Frequency display: YES(only 8138)

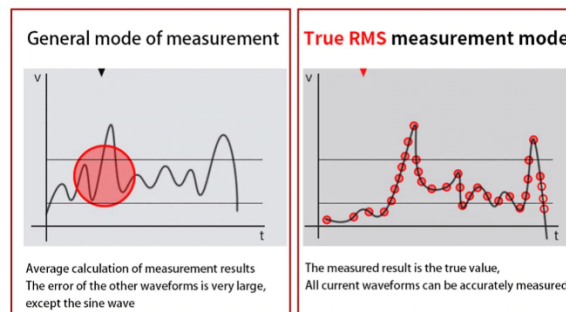

Color screen: YES(only 8138) On and off the test: 0.6V

No-operation shutdown: about 5 minutes

Power by: 2 * AAA battery (not included)

Size: 133 * 67 * 12mm / 5.2 * 2.6 * 0.5in

True RMS

Most current waveforms are not sinusoidal
The power supply is distorted in different circumstances
Therefore, it is very important to accurately measure the AC current and voltage
