

Thermocouple Thermometers **HT-9815**

It is used for measuring temperature via probe, and it is usually used in industrial measurement.

- 4-Channel K-Type Digital Thermometer Thermocouple Sensor
- Measurement Temperature range: - 200°C ~ 1372°C
- K Type Temperature resolution : 1000°C : 1°C / ° F / K

Specification

Temperature range	Basic accuracy
-200°C~1372°C(-328°F~2501°F)	
T1,T2,T3,T4 above-100°C(-148°F)	±[0.15%rdg + 1°C(1.8°F)]
T1,T2,T3,T4 below-100°C(-148°F)	±[0.5%rdg + 2°C(3.6°F)]
Type K temperature resolution	0.1°C/°F/K, <1000.
	1°C/°F/K, >1000.
Size	200×85×38mm
Weight	230g
Accessories	9V battery, black bag, manual blister card and type K probe

HT-9815

Item includes:

- 1 x Meter and 4 Probe sensor (length 95 cm Each probe -30°C to 300°C)
- Battery: 9V DC
